Fundamentals of Statistical Signal Processing, Volume III

The history of statistics in the modern sense dates from the mid-17th century, with the term statistics itself coined in 1749 in Germany, although there have been changes to the interpretation of the word over time.

Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.
